Importance: High

Climax JD workgroup:

Attached is a pre-submittal package on the Climax Mine jurisdictional determinations. Lesley would like to get our comments by July 30, 2014. This is very important if we have any substantive comments to share with the Corps. I would like to have a call/meeting late on Monday July 28. Please let me know your availability. If you plan to only submit written comments or if you will be assigning someone else to review, provide comment and meet with the workgroup on this complex system. Please forward to others that should be included and I have missed.
